

Polytechnic Institute of Viseu

School of Technology and Management of Viseu

Course title	French I						
Scientific area	Languages						
Teaching method	During the course many different teaching methods will be used.						
Lecturers:		Language of instruction	French				
ECTS	4	Semester	Fall				
Hours per week	3	Hours per semester	TP: 39; OT: 13				
Objectives of the course	<p>By the end of the semester, students will have improved their communicative competence as far as the French language is concerned, more specifically, they will be able to communicate general information related to their professional field and their daily. The most important aim of the course is to help students acquire and develop communicative skills. Students will also be acquainted with some vocabulary and grammatical structures commonly used in their professional context. Moreover, they will check, explain and give information related to daily situations, using the phone, etc. These are skills that are fundamental to all business contexts where French is used, and will be practiced throughout the semester. The emphasis of the discipline is on carrying out activities where students should be aware that they should use their knowledge and skills as they participate in the activities.</p>						
Entry requirements	There aren't any.
